

OG Essentials Premium Cleansing Soap Bar

We all know how important it is to wash your hands several times a day.

Germ invisible to the naked eye continually pass from surfaces to skin through simple contact and remain there until we remove them.

Among the microorganisms that hide and proliferate on our skin, there are some pathogens responsible for a large number of diseases.

Our immune system is prepared to cope with these microorganisms but sometimes it is good to give them a hand by washing them.

Careful washing, performed in the right way and with a suitable product, is sufficient to eliminate most of these unwelcome guests.

MAIN INGREDIENTS

SODIUM COCOATE, AQUA, SODIUM CHLORIDE, GLYCERIN, COCAMIDE DEA, GANODERMA LUCIDUM EXTRACT, PARFUM, PRUNUS ARMENIACA SEED POWDER, GLUTATHIONE, TETRASODIUM ETIDRONATE, PENTASODIUM PENTETATE, VITIS VINIFERA SEED EXTRACT, SODIUM BENZOATE, POTASSIUM SORBATE, CI 77891.

Apricot seeds

Apricot seeds are the powder ground from the seeds of a kind of apricot, "Prunus armeniaca" and boasts exfoliating properties. Exfoliating agents are granular substances that provide sensory cleaning signals when rubbed on the skin. The exfoliation process removes old cells and lets new ones emerge for skin renewal. In addition, they are used to combat the signs of aging and to reduce the opaqueness of the skin.

Coconut oil

Coconut oil is extracted from the coconut pulp and has a soothing and emollient action, it gives elasticity and tone to all skin types, even the driest ones. The fatty acids present in coconut oil have excellent antiseptic and antifungal action.

Ganoderma Lucidum

Ganoderma Lucidum is known by different names, "Lingzhi", "Reishi", "Linh Chi" and means respectively "spiritual power", "king of herbs", "supernatural mushroom". Whatever you want to call it, Ganoderma Lucidum is one of the most used plants in traditional Asian culture as it is a plant with many qualities.

ORGANO™ has a collaboration with Fujian Xianzhilou Biological Science and Technology Company, which is one of the few companies in the world to produce 100% organic certified Ganoderma lucidum.

Take advantage of its skin protection function that helps to avoid harmful effects on the skin from external factors.

Grape seeds

Grape seeds reported to have antibiotic, antiseptic, disinfectant and preservative properties.

Their antioxidants protect the skin cells and slow down the ageing process. Ingredient that enhance the appearance of dry or damaged skin by reducing flaking and restoring suppleness.

AND ALSO:

Glutathione

Glutathione is truly formidable for the body in general.

Glutathione helps maintain the skin in good condition, as well as with its emollient functions, helps softens and smooths the skin.

Glycerin

Known for its emollient refreshing and moisturizing properties, Glycerin is the third most frequently used ingredient in personal care products. An ingredient that increases the water content of the top layers of the skin by drawing moisture from the surrounding air. Other reported functions for glycerin include use as a fragrance ingredient.
